# Pryor's Price List - 1943

## Prices F.O.B. Salisbury, Md.

The government has declared berries to be essential and wants us to grow more of them and has given them a rating of 1½ war units per acre. They are healthful too and no "Victory Garden" should be without them. Strawberries are profitable, being one of our best paying crops, and are easily grown. The secret—Plant early in spring, on good ground, at proper depth; keep blossoms picked off first year (except everbearers and off these until July 1st) keep free from grass and weeds. Gem and Mastodon produce fruit the first year.

1943 my 24th year selling healthy, well rooted plants at reasonable prices. For prompt service and careful attention send me your orders this year.
